irhahdesigns@gmail.com | 608-609-5925

Transdisciplinary designer working across product, UX, and brand design, spanning digital interfaces, physical environments, and immersive media. I turn research into experiences people can actually use and brands people remember, from exhibitions and product concepts to Figma prototypes and hands-on installations. Storytelling shapes how I design and defend direction with cross-functional teams, alongside hands-on UX research and usability testing and a strong interest in AI-enabled experiences and emerging technology's impact on user behavior.

EDUCATION

M.S., Design + Innovation (Engineering) · GPA 4.0/4.0
University of Wisconsin–Madison | Sept 2025 – Aug 2026

B.Des., Communication Design · Graduated with Distinction in Thesis
Indus Valley School of Art & Architecture | Jan 2017 – Dec 2020

PROFESSIONAL EXPERIENCE

Freelance Brand Designer
May 2024 – Jan 2025

Independent · *Brand identity and packaging design for independent clients*

- Designed end-to-end brand identities for businesses including MagicBox and Mr. Whiskerworth's, translating brand concepts into cohesive digital and physical touchpoints.
- Created visual systems, packaging, digital experiences, and storytelling-driven brand assets.

Creative Lead (Experience Design & Brand)
May 2023 – May 2024

AA Joyland Pvt. Ltd · *Family entertainment venues across Pakistan and the UAE*

- Led experience design and brand strategy across six entertainment brands (Super Space, Peek A Bear, Bounce, Giggle Town, Kids HQ, and Flipped), shaping how customers move through and interact with physical spaces.
- Directed cross-functional teams of 5 designers across digital, print, and environmental experiences.
- Built scalable design systems spanning websites, marketing, and physical touchpoints, including Flipped's brand and signage system, a reusable system for new locations as the company expanded internationally.
- Collaborated with project managers, developers, architects, and stakeholders in iterative, Agile-style cycles, prototyping and testing materials with people to define requirements and refine designs.

Lead Designer & Illustrator
Apr 2021 – Jan 2023

Azcorp Entertainment Pvt. Ltd · *Entertainment company producing social impact campaign content in Pakistan*

- Designed comic material and marketed the four-edition #GirlsCan comic series for UNICEF and Malala Fund, including media content and social media.
- Created illustrations and content for the national #BackToSchool campaign, reaching audiences across Pakistan through broadcast, digital, and print channels.
- Managed the full creative pipeline from storyboarding and illustration through to final content design for social impact campaigns.

Additional Experience: Creative Intern, VCast Online (2020) — Creative Intern, Ogilvy & Mather (2019)

PRODUCT & DESIGN PROJECTS

WayHome
2026

UX Design · *Mobile app for students facing urgent housing deadlines*

- Conducted user research and journey mapping to identify challenges faced by students experiencing urgent housing needs.
- Designed user flows, wireframes, and interactive prototypes for a mobile app that streamlined housing search, resource discovery, and decision-making under time pressure.

Dolled Up VR
2026

Product Design · *Immersive VR fashion experience built in Unity*

- Designed, developed, and iteratively tested an immersive VR fashion product in Unity blending virtual exploration, outfit selection, and interactive posing mechanics.
- Translated interaction and visual design into a fully sensory, spatial experience.

How Do We Love? (Cupid on Earth)
2026

UX & Experience Design · *Speculative civic design capstone imagining love as public infrastructure*

- Designed Cubot, a companion character for a speculative civic design exhibition, developing its physical form in Blender and building a fabricated prototype tested on location in Madison.
- Built the accompanying brand system, UI style guide, and a narrative video sequence to translate speculative research on care and infrastructure into a cohesive sensory experience.
- Collaborated with PBS Wisconsin, iterating on their feedback throughout the summer semester to help develop and refine the project.
