Irhah Arshad Siddiqui

Product Designer | UX · Visual Design · Prototyping · AI
www.irhaharshad.com | linkedin.com/in/irhah-arshad | irhahdesigns@gmail.com | 608-609-5925

Designer with 4 years of experience across product, UX, brand, and experience design, combining strong visual craft with hands-on research and prototyping. Led a team of 5 designers across 6 brands and independently owned a brand identity and signage system implemented across 3 UAE locations. Experienced in taking projects from early concepts through design and execution, with hands-on experience using AI-assisted development to build digital experiences.

EDUCATION

M.S., Design + Innovation (Engineering) · GPA 4.0/4.0 — Sept 2025 – Aug 2026
University of Wisconsin–Madison

B.Des., Communication Design · Graduated with Distinction in Thesis — Jan 2017 – Dec 2020
Indus Valley School of Art & Architecture

PROFESSIONAL EXPERIENCE

Freelance Brand Designer — May 2024 – Jan 2025
Independent · *Brand identity and packaging design for independent clients*

- Delivered end-to-end brand identities for independent clients, including MagicBox and Mr. Whiskerworth's: visual systems, packaging, and digital experiences.
- Managed projects independently, from client discussions and creative direction to final deliverables.

Creative Lead (Experience Design & Brand) — May 2023 – May 2024
AA Joyland Pvt. Ltd · *Family entertainment brands and venues across Pakistan and the UAE*

- Led a team of 5 designers across 6 entertainment brands (Super Space, Peek A Bear, Bounce, Giggle Town, Kids HQ, Flipped), setting design direction across digital, print, and physical environments.
- Served as the primary brand designer for Flipped Park, owning its visual identity, brand guidelines, and signage system in collaboration with the architect; the system was implemented across 3 UAE locations.
- Built design systems spanning websites, marketing, and physical touchpoints, structured for reuse as new locations opened.
- Collaborated with 4 architects and 1 interior designer, alongside developers, project managers, and other stakeholders, taking projects from prototyping and material testing through implementation.

Lead Designer & Illustrator — Apr 2021 – Jan 2023
Azcorp Entertainment Pvt. Ltd · *Entertainment company producing social impact campaign content in Pakistan*

- Designed and marketed the four-edition #GirlsCan illustrated comic series for UNICEF and Malala Fund.
- Created campaign content across social media, physical banners, music videos, and radio programming.
- Produced visual content for the national #BackToSchool campaign across broadcast, digital, and print channels.
- Prepared social media performance metrics for project reporting.

Internships: Creative Intern, VCast Online (2020) · Creative Intern, Ogilvy & Mather (2019)

PRODUCT & DESIGN PROJECTS

WayHome — 2026
Product & UX Design · *Mobile app concept for students facing urgent housing needs*

- Ran primary research with 302 survey respondents and 4 student interviews; synthesized findings into user journeys and product opportunities around housing discovery and time-sensitive decisions.
- Designed user flows, wireframes, and interactive prototypes for housing search under time pressure.
- Presented the final concept and prototype, receiving the highest peer vote in the Social Impact category.

Dolled Up VR — 2026
Product Design & Development · *Immersive VR fashion experience built in Unity*

- Designed and built a Unity VR fashion experience with virtual exploration, outfit selection, and interactive posing.
- Turned design concepts into an implemented spatial experience; still refining after 3 rounds of student feedback.

Portfolio Website (irhaharshad.com) — 2026
AI-Assisted Development · *Designed and built end to end with Claude Code*

- Independently designed and built my entire portfolio website using Claude Code, translating visual and interaction design decisions into a functional, deployed website.

How Do We Love? (Cupid on Earth) — 2026
UX & Experience Design · *Speculative civic design capstone imagining love as public infrastructure*

- Designed Cubot, a companion character for a civic design exhibition, from Blender model to prototype tested in Madison.
- Built the brand system, UI style guide, and narrative video, iterating on PBS Wisconsin feedback.
